Message: Dear Gov Cooper, Are you aware of what is going on in our state regarding the Atlantic Coast Pipeline? There was a public hearing last night in Fayetteville and another Thursday night in Rocky Mount. This pipeline is planned to go through almost every waterway and wetland in the eastern part of the state for no regard for its people or the care for water or care for the environment. It is intentionally going through poor and ingenious people's areas without proper information to any of the residents and without proper full and complete study or honest explanation of the studies. PLEASE HELP!!!
